Valentine

ValentineForPresident.com

VALENTINE was raised on a Virginia farm near the Shenandoah River and the Blue Ridge Mountains in a county adjacent to where Jefferson, Madison and Mason grew up on farms. After skipping 11th grade, he graduated from high school with a 4.0 GPA, then attended The University of Virginia where he began work recodifying the laws of the United States. After graduating in 3 years, he simultaneously ran precinct operations for both the John Warner for US Senate and the Frank Wolf for US Congress campaigns.

In the early 1980s he traveled the world researching governments using his NY Elite modeling credentials to pay for the trip. He furthered his graduate studies at UCLA, UNLV and UM. Valentine has devoted most of his tireless life to finding effective solutions to America's social, political and governmental problems, culminating in The Valentine Constitution. He is the author of the book [The Valentine Constitution](#), an exposition of his constitution and vision for America. A nonpartisan [candidate for President](#) in 2020, Valentine hopes to implement his newly ratified constitution, a task that falls primarily to the executive branch. Valentine is an American political philanthropist, philosopher, poet, author, lyricist, singer, songwriter, music producer, actor, screenwriter, movie producer and director.

PLATFORM

Children will discover and develop their gifts in schools that teach real world skills through tutorships, mentorships and apprenticeships also available to adults on nights and weekends to upgrade their skills to justify the \$20 per hour minimum wage; teachers will receive double the minimum wage; 75% of all products sold in America will be made in America to insource jobs; 12-year term limits are imposed and big money, special interests and political favors will be eliminated; a helpful government will streamline all business compliance freeing Citizens to conduct business over a free market capitalist internet economy; all taxes will be eliminated except one 5% tax on both buyer and seller in wholesale and retail transactions making Wall Street multinationals finally pay taxes; citizens will be able to follow their tax dollars to and rate the single government department responsible for each problem since there will be no overlap or duplication of services; fossil and nuclear fuels will be replaced by a graphene or solar tiled highway transportation, energy and information grid with electric driverless cars and high speed intercity lanes; all toxins and invasive species will be eliminated from our water and food chains: Women, LGBTs, blacks, etc. will finally have equal rights and pay without harassment; policing has a hard crimes division, and a soft crimes division for misdemeanors to help petty criminals out of their problems and avoid overincarceration; online courts will allow free reviews and advisory opinions by judges expert in that area; and much more at [TheValentineConstitution.com](#)

WHAT'S WRONG with our CONSTITUTION?

Our 240 year old Constitution covers
NONE of our modern problems.

AMENDING IS CONSTITUTIONAL

Our Constitution allows us to amend it.
We'll keep 90% of our Constitution,
our foundations and rights
and solve all our modern problems.

NO MORE TIME

Passing piece by piece all the legislation we need
would take far too long, even if they could.
It took Valentine 12,000 hours over 45 years.

ENDS the DIVIDE

The issues of the left, right and center
are NOT mutually exclusive.
You'll get what you want most
and compromise on secondary issues.

ALREADY WRITTEN LEGISLATION

In order for your mission or cause to become law,
it must first be written, then voted on,
and must have enough votes to pass.

POLLING

All you have to do is say you want it,
and get others to say they want it,
and polling will force candidates
to vote for ratification or not be (re)lected".

WHY do we need a new CONSTITUTION?

Our Constitution allows our politicians to
indulge Wall Street monopolies yet
neglect average Americans.

ALL ELSE HAS FAILED

All our attempts at political change have failed:
candidacy, nonprofits, marches and protests.
If they could have solved our problems,
they would have by now.

CANDIDATES are DEADLOCKED

Even if your wish list of candidates were elected,
what legislation would they pass?
They're too polarized and stalemated.

UNITES AMERICA

Brings all Americans to the negotiating table
allows them to agree on solutions,
then dictate play to politicians.

COMBINED POWER

Alone, voters, nonprofits, celebrities and causes
lack the power to fulfill their missions.
Together, they can dictate ratification
by simply getting the word out to followers.
